My Github repo

w04_p1: Use git pull to update README.md

w04_p2: Display Github to Vercel

Screenshot of a GitHub repository page for "JKYROC / 1111-sweb-demo-208410349". The repository has 1 branch and 0 tags. It contains a README.md file with the content "1111-sweb-demo-208410349". The repository has 6 commits, 0 stars, 2 watchers, and 0 forks. A red box highlights the "About" section, which includes a link to "1111-sweb-demo-208410349-no6y.vercel...."

Screenshot of a browser window showing a blog post at "1111-sweb-demo-208410349-pz3j.vercel.app/w03-208410349/blog_208410349.html". The post is titled "seven reason why coffee is awesome" and discusses coffee culture. A large image of a latte being poured is displayed. On the right, a code editor shows the Markdown source code for the post, including sections for "Github url" and "My Github".

w04_p3: Share GitHub repo to teacher and ta

The screenshot shows a GitHub repository page for 'JKYROCK/1111-sweb-demo-208410349'. A red box highlights the repository name in the address bar. Below it, the 'Settings' tab is selected. Under 'Who has access', it shows 'DIRECT ACCESS' with 2 collaborators: 'Hsingtai Chung' and 'jerry7657'. A red box highlights the 'Find a collaborator...' search bar and the list of collaborators. To the right, a file browser window shows the repository's structure, including 'README.md' which contains instructions for pulling updates.

w04_p4: Add HomePage.html as HomePage, and show in Vercel

The screenshot shows a Visual Studio Code editor with 'HomePage.html' open. The code defines a navigation menu with three items: 'w01-introduction', 'w02-card demo', and 'w03-blog demo'. A red box highlights the menu structure. To the right, a browser window shows the rendered HTML with the same three links. The status bar at the bottom indicates the code is running on port 5500.

w04_p5: finish w03 blog demo with hover and transition

The screenshot shows a development environment with three main components:

- VS Code (Left):** A code editor displaying the CSS file `blog_208410349.css`. The entire file is highlighted with a red box.
- Browser (Center):** A web browser showing the blog page titled "Latest Blogs". It displays a large coffee cup image and two blog posts. The first post's content is highlighted with a blue box.
- Chrome DevTools (Right):** The "Elements" tab is active, showing the DOM structure. A red box highlights the `div.blog-content` element of the first blog post, which corresponds to the blue box in the browser. The DevTools also show the CSS properties for this element, such as `font-weight: 500`.

w04_p6: Add font awesome css, add two icons

This screenshot illustrates the addition of Font Awesome icons to the blog posts. The process involves:

- VS Code (Left):** The `blog_208410349.html` file is open, showing the updated HTML code where icons are added to the blog posts. A red box highlights the `<i class="fa-regular fa-cup-togo">` icon in the first post's content.
- Browser (Center):** The blog page now displays the added icons next to the text. The first post includes a "LifeStyle" icon and a "Read More" link.
- Chrome DevTools (Right):** The "Elements" tab shows the DOM structure. A red box highlights the `i.fa-regular.fa-cup-togo` icon in the browser's content, which corresponds to the one in the VS Code editor. The DevTools also show the CSS rule `.fa-regular, .far { font-weight: 400; }` applied to the icon.
